To Whom It May Concern:

My name is Arthur W. Brown, on Feb. 28, 2006 I was diagnosed with the terminal illness, Amyotrophic Lateral Sclerosis (ALS) also known as Lou Gehrig's disease I have been given maybe 3-5 years to live and I am now confined to a wheelchair, soon to be bedridden. The reason that I am asking for your help is that since Oct. 2006, I have been having major difficulties with FMEP. (Family Maintenance and Enforcement Program).

They have ignored and have not acknowledged any of my letters and statements, regarding child support for my youngest child. The 2 times that I phoned them all they did was verbally attack me and tell me to keep paying child support, while ignoring anything that I was telling them. My youngest child, (April Dawn Brown), turned 19, October 30, 1996, and she is going to college part-time, working part-time and has not lived with her mother since July 2005.

According to FMEP's own webpage and rules, after a child has turned 19, the only reason to continue with paying child support is:

- The child must be living with the custodial parent – she is not
- The child must be financially dependant upon the custodial parent – she is not
- The child must be attending college/university full time – she is not

I now have to live on approx. \$1,500 per month unlike when I worked full-time. The FMEP has ignored the fact that my income has dramatically been reduced, they have ignored their own rules and insist on my continuing paying child support, based on my full-time income.

I have a lien on my property; they have garnisheed my Canada Disability Pension in the amount of \$226.03 and destroyed my once excellent credit rating.

Sincerely yours,

Arthur William Brown

Attached: Notice of Attachment, Lien on property, doctor's diagnosis, Request for Information of Child's Circumstances from FMEP that EX-wife signed,
