## To Whom It May Concern

Last friday (13-October) my bank account was garnisheed, I was left with a total of \$00.43 in the bank.

At this time I have rent and bill's to pay which would come to somewhere approaching \$1500.00 to \$1800.00.

Since my last pay was also direct deposited on frlday I now have no way of supporting myself, I have no money for food or for gas for my car to enable me to work. My employer also tells me that they will only pay me by direct deposit, I therefore no longer have a job, since the money would not reach me.

I have tried talking to the Family Support people at 1916 Dundas St. E. their answer was:- " we have a court order." repeated several times.

I have tried talking to the welfare people in Markham, since I earned over \$520.00 in the last month I am not eligibile for assistance.

I have had no contact with my daughter in approx. 4 year'a. I do not even know if she is alive and well. I have tried to keep her informed of my current telephone number but she has never bothered to call.

I have no familly and no friend's, very little food, no viable job and very poor future prospects. I have therefore decided that there is no further point in continuing my life. It is my intention to drive to a secluded area, near my home, feed the car exhaust into the car, take some sleeping pills and use the remaining gas in the car to end my life.

I would have prefered to die with more dignity.

It is my last will and testament that this letter be published for all to see and read.

Signed

  
(A T. Renouf.)
